Workshop

Lightsheet Fluorescence Microscopy

Using turnkey lightsheet microscopy to image biological samples in 3D from multiple orientations, with sub-cellular resolution. Zeiss invites you to an exclusive Lightsheet workshop at IMB. Suitable for beginners and advanced users!

Session 1: 09:00 - 12:30
Session 2: 14:00 - 17:00

Join us and...
- Compare standard imaging modalities.
- Understand the benefits of fast gentle imaging on biological samples.
- Get insights into advanced integrated processing methods for streamlined analysis and interpret your image data.
- Learn how to image your samples more effectively through flexible sample mounting techniques.

Friday 08 March 2019
Level 6
Institute of Molecular Bioscience (IMB)
University of Queensland
